Communications Guide

[Communications Guide](#): Under the new proposed Title IX regulations, all campus employees must report to the Title IX coordinator when a student is pregnant or experiencing related conditions. This means the Title IX coordinator's contact information must be readily available and in a prominent place on all communication materials. This communications guide will support Title IX coordinators and other administrators in ensuring all students and staff have access to the information that they need in a timely manner so that the new Title IX regulations can be seamlessly brought to life on your campus.
